

Stop-Think-Act

Your safety is our highest priority. United Talent Staffing's Stop-Think-Act program helps you and those around you stay safe.

STOP

Stop to think about the choices you make and the actions you take. You are responsible for your safety and the safety of those around you. Your attention to safety may be the difference between life, injury or death.

THINK

Stay alert and aware of safety hazards, rules and regulations. Think about the people and activity around you. Watch for unsafe conditions. Let the “eye” in the United Talent Staffing logo remind you to see and think about safety at all times.

ACT

Take action to be safe at work. Wear proper PPE. Tell your supervisor if you see unsafe conditions or behaviors. Lift only within your capabilities. Ask a buddy for help when you need it. Keep your workspace tidy. And never drive or walk while texting.
